

Please do not flatten your artwork
Use this template as a guide while you design

* All artwork must be 300 dpi in CMYK color mode

TIPS:

- Let all artwork extend past the trim line by at least 1/8" (bleed)
- Turn off or delete template layer(s) before submitting for print
- Supply all fonts or convert type to outlines before submitting

This template can be used to print one or two-sided jewel case inserts.

— safety area

— Outside solid line = trim

— bleed area
